

Advanced Reservations

note if user started filling in quick booking it also needs to transition to here.

Reservation type dropdown to include

Do not move ✓

Reservation Pending

Reservation Confirmed

Normal ✓

Wait list ✓

RV length defaults to none if that is chosen

if willing to move is selected sites that will be available for part of stay will show. & multi site notification will appear. multi site dropdown will filter out sites available for the remaining date range automatically. first site gains a number behind to show how many more sites are available to fill the remaining time frame. waitlist only will appear if no sites are available that meet the search criteria.
