# MEET ADILAS!

Our blue dog avatar is the mascot of Adilas, and encompasses what we are comprised of - **a trustworthy, invaluable, and loyal sidekick for your business.**

*efficient search*

1

## EFFICIENT SEARCHING

Let Adilas put her nose to the "cloud" (if you will) to search for any data point within the system. Search for invoices, quotes, customers, vendors and much more!

*fast retrieval*

2

## FAST DATA RETRIEVAL

After you put Adilas to work searching for your data, she will quickly locate and retrieve your data for you. Once retrieved, you can choose to view, edit, and analyze your data for your specific needs.

*organized inventory*

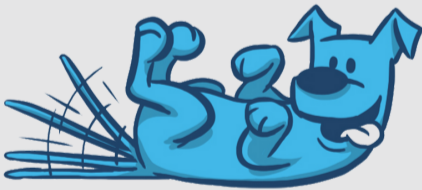

3

## ORGANIZED INVENTORY

Allow Adilas to neatly store and sort your inventory for easy access and viewing. This will also help beautifully display your inventory on our E-Commerce platform for your online customers.

*user friendly*

4

## USER FRIENDLY INTERFACES

Adilas is a great companion that you will want by your side every step of the way. Our platform can be customized for user friendliness and we have multiple interfaces to choose from to help improve daily workflows and tasks.

*secure storage*

5

## SECURE STORAGE

Adilas will safely "bury" your data into our secure servers. We have over 100 different user permissions to safeguard your data, yet still provide your employees with the access they need to perform their duties responsibly.
