AT THE COUNTER. ON THE FLOOR. ONLINE.

The right setup. One native system.

01

Work where your customers are.

Plan your counter, customer displays, printers, and mobile workflows around the way your team serves people.

02

Keep the back office connected.

Let the sale carry its context into inventory, customer records, and native accounting.

03

Choose the right payment fit.

Review processor compatibility, hardware, and costs as part of your setup.

LET'S MAKE IT SIMPLE

A few things you might be wondering.

Ask us anything +

Is APEX just a point-of-sale system? ×

Point of sale is one part of the platform. APEX by adilas connects sales with inventory, customer relationships, online commerce, accounting, and multi-location operations.

Can I manage more than one location? +

Do I need to replace everything at once? +

What does the platform cost? +

Is AI Auto Pilot available today? +

YOUR NEXT CHAPTER STARTS HERE

Let's bring your

APEX by adilas / The platform

THE PLATFORM

One business. Everything connected.

Your sales, inventory, customers, people, and accounting belong in the same conversation. APEX brings a fresh experience to the connected adilas foundation.
