Live 4-Day Adilas Training & Workshop

Get away from the craziness of life. Take in a 4-day adilas live training event and workshop.

Who:

Put on by the founders of the adilas.biz online application system and business platform, you are invited to come learn and play with us. We welcome all users, existing clients, prospective clients, reps, consultants, developers, and other interested parties.

What:

The focus of this workshop is “Ground Zero and Up”. We’ll start with a demo, move into core concepts, show some new and upcoming features, highlight some key stepping stones, and then break into many of the features, tools, processes, and procedures. We have scheduled lots of time that allows you to ask your questions, get into the application, and do some quality and dedicated practice time. The goal is to help and enable you to build your own world using adilas tools and features.

How Much:

\$100 per seat per day. Lunch is provided at the venue. Seating is limited and may be reserved through the adilas ecommerce site. There are seats for up to 30 live participants and 20 online (GoToMeeting) seats.

To book your seat, Go to:
<https://www.adilas.biz/shop/adilas>

Where:

Just 1.5 hours north of Salt Lake City, UT, we will be meeting in an area commonly known as “Cache Valley”. Historically, this high mountain valley was used by trappers and fur traders to cache their pelts and furs. Thus, the name Cache Valley. The valley is around 10 miles wide and covers over 40 miles in length. Spring will be in full bloom with a green valley floor and snowcapped peaks all around.

The beautiful Cache Valley area is home to Utah State University (USU) and tons of other attractions. In less than 10 minutes, from where the training will be held, you could be shopping, dining, hiking, biking, fishing, or relaxing after a full day of training.

The training event and workshop will be held at Bridgerland Applied Technology College. Room 810, Custom Fit Department, Logan Main Campus. 1301 North 600 West, Logan, UT 84321. Phone: 435-753-6780

When

4-day training event - Tuesday, May 29th, 2018 through Friday, June 1st, 2018. Class times will be from 9 am to 5 pm, with lunch provided.

A fully daily breakdown & schedule may be downloaded from:

https://www.adilas.biz/logan_training_schedule_may_2018.pdf

Why:

Our goal is to share and help you build on what you have. If you don’t have much, by way of a system, we can offer almost an entire business platform and customizable solution. If you already have a bunch of the pieces, we would love to add to them.

The word “adilas” is an acronym for “all data is live and searchable”. We are a web-based hosted solution. In modern language, this is commonly known as “Cloud-Based”, “eBusiness”, or “SaaS” (Software as a Service). We are a “Virtual Data Portal” to help businesses with sales, inventory tracking, POS (point of sale), CRM (customer relationship management), online expense tracking, BI (business intelligence), payroll, timecards, scheduling, backend office, accounting functions, and much more.

For more info go to:
www.adilas.biz/intro_to_adilas.pdf
who we are and what we do.

“We have a solution, for solution-minded people” – Danny Shuford, Sales and adilas.biz core team member.

“Adilas is a great companion software package for any business.” – Russell Moore, Lead designer and adilas.biz core team member.
